

MYSTIFY VIPER

High Precision Mouse

Compact and dangerous.

With its gameoptimized resolution of 800 cpi (counts per inch), TerraTec's Mystify Viper brings speed and precision to your notebook. When pixel precise moves without delay are what you need when gaming on the road, this specially designed mouse is for you.

Glowing eyes.

The Mystify Viper really stands out in a field of grey mice. Your enemies will hardly have a chance when the Alien shaped mouse enters the stage – beware of its red flashing LED eyes! With its 3 buttons and a scroll wheel you'll finally find your ideal mobile gaming tool – no matter if you're left- or right handed.

Flexibility for notebooks and desktop PCs.

Installation is simple thanks to USB Plug & Play—just plug it in and go. All of your commands will reach your notebook through a flexible USB cable without delay. With the included cable extension you can comfortably use the Mystify Viper with your desktop PC, too.

Mystify Your Games!

Want to squeeze every last drop of performance from your hardware? Push the possibilities of your games to the limit? Pay attention to this label: "Mystify Your Games". Experience professional, perfectly tuned equipment especially developed for the needs of demanding players.
