# MYSTIFY 9200 SE

AGP Graphics Card

The launch pad for the ATI 9 Series

With the Mystify 9200 SE from TerraTec you can profit from the world class technology of the superb 9 Series chipset from ATI — and get excellent performance at an unbelievably low price. No matter whether for the office or for home gaming — the Mystify 9200 SE can always stand out from the crowd.

### Convincing performance and connection options

With a massive 128 MB of memory and a clock speed of 333 MHz the Mystify 9200 SE can make things lively in no time — absolute gaming fun guaranteed! Of course, you can use DVI to connect your TFT monitor directly to your TV without any loss of quality via the TV-Out — if you want to experience the impressive 2D and 3D displays in large format.

### A low-cost jack of all trades

The Mystify 9200 SE can offer you fascinatingly realistic gaming worlds and an ultrarapid application display — at a price-performance ratio which leaves others standing.

### MYSTIFY YOUR GAMES

Want to squeeze every last drop of performance from your hardware? Push the possibilities of your games to the limit? Then pay attention to this label: "Mystify Your Games". Experience perfectly tuned professional equipment, specially developed for the needs of demanding players.
