Teletext
Pause live TV (Timeshift)
Digital video recorder*

Tiny but powerful

It is by far the smallest member of the Cinergy family.
Tiny, but with great performance.

A stunning design and an absolute head turner. Based
on its size it is the ideal solution to enjoy watching TV to
the fullest extent on a Netbook.

Besides that the stick incorporates all possibilities of
modern TV and video techniques.

More performance is simply not possible at this rate.

Everywhere at home

You travel a lot? You want to be informed well, kill some time or just feel a little at home?

Cinergy HTC USB XS HD is the TV stick you should choose as your ideal solution.

This flexible multi talented USB stick receives digital TV through cable (DVB-C), terrestrial (DVB-T), analogue TV through cable or terrestrial and FM RDS radio.

No matter where you are – receive your favourite TV channels, record programmes and let yourself be informed quickly and easily through teletext.

Just like home, isn't it?

CINERGY hybrid Stick RC HD
including HD support

Wanted: holiday companion

Small, uncomplicated with maximum flexibility in reception standards.

For those that travel a lot, will come to love the Cinergy Hybrid Stick.

Its easy usage, the ability to use different reception standards, high comfort and unbeatable price performance ratio make the Cinergy Hybrid Stick an ideal companion when travelling.

And after you are done travelling you can easily digitise your videos with the optional accessories.

TV Happiness can be very easy

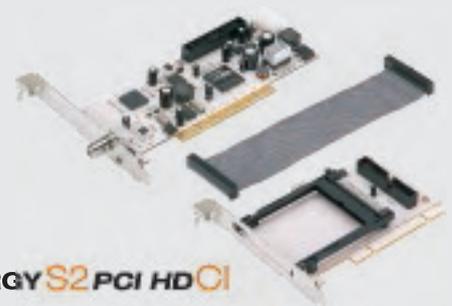

End the everyday battle on the choice off your Familie TV programmes with this internal PCI TV card.

Receive unlimited digital satellite TV on your PC. Easy recording of your familys favourite TV shows at the touch of a button or through a timer. Remove commercials with the included software and experience the unbelievable picture and sound quality of HDTV.

With the optional internal CI module this TV card can even handle pay-tv channels.

CINERGY S2 PCI HD

*DVB-S and DVB-S2 PCI TV and radio tuner
HD support for MPEG2 and MPEG4/H.264
Including AC3 Dolby Digital codec
Optional pay-tv module (Cinergy CI AddOn)
Digital video recorder with editing functionality*

CINERGY S2 PCI HD CI

Including common interface (CI) for pay-tv

Future ready and expandable

For all those that are looking for a future ready TV solution and receive digital television through cable, Cinergy C PCI HD is the card you are looking for.

Watch all HD channels that are offered by your cable provider in perfect picture and sound quality and feel like you are in a cinema at home.

If you are already subscribed to pay-tv channels this internal card can be expanded with an internal CI card, so you can watch these channels also on a PC.

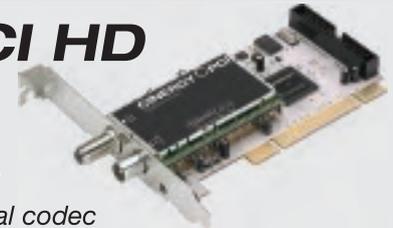

Tanks to the integrated digital personal video recorder you can create a video library with all the latest movies.

CINERGY C PCI HD CI

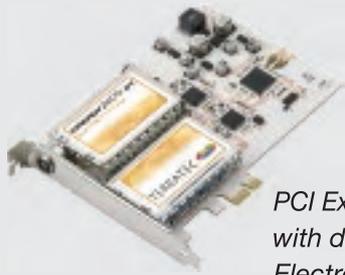

*Cinergy C PCI HD including CI module
DVB-C TV and radio tuner
Supports HDTV in MPEG2 and MPEG4/H.264
Including AC3 Dolby Digital codec
Digital video recorder with editing functionality
Including remote control*

CINERGY C PCI HD

*DVB-C TV and radio tuner
Including AC3 Dolby Digital codec
Supports HDTV in MPEG2 and MPEG4/H.264
Optional pay-tv module (Cinergy CI AddOn)

Including remote control*

CINERGY 2400i DT

*PCI Express DVB-T TV card
with dual tuner support
Electronic Program Guide (EPG)
Teletext
Supports Windows Media Center Edition
Including remote control*

Double fun

Watch one program and record one at the same time.

The internal DVB-T TV card with two tuners makes sure you will never miss a program again and offers full Windows Media Center Edition (MCE) support. You even do not have to give up the comfort of your living room with the included remote control.

Lights, camera, action!

Decorative DVB-T antenna

The small and compact indoor antenna not only convinces because of its performance as an active DVB-T and DAB antenna, but also because of its look.

Especially in bad reception areas Antenna Two guarantees an optimal reception with highest quality without additional outdoor antenna.

Through the integrated (analogue) picture frame the antenna is not directly recognisable as such and because of that fits perfectly in any modern living environment.

CINERGY Antenna TWO

CINERGY Antenna XS

Compact active DVB-T antenna

Reception improvement of DVB-T
Powered through USB or set top box
Suitable for standing or wall mounting
Optimised reach and reception quality
Noise reduced, Low distortion

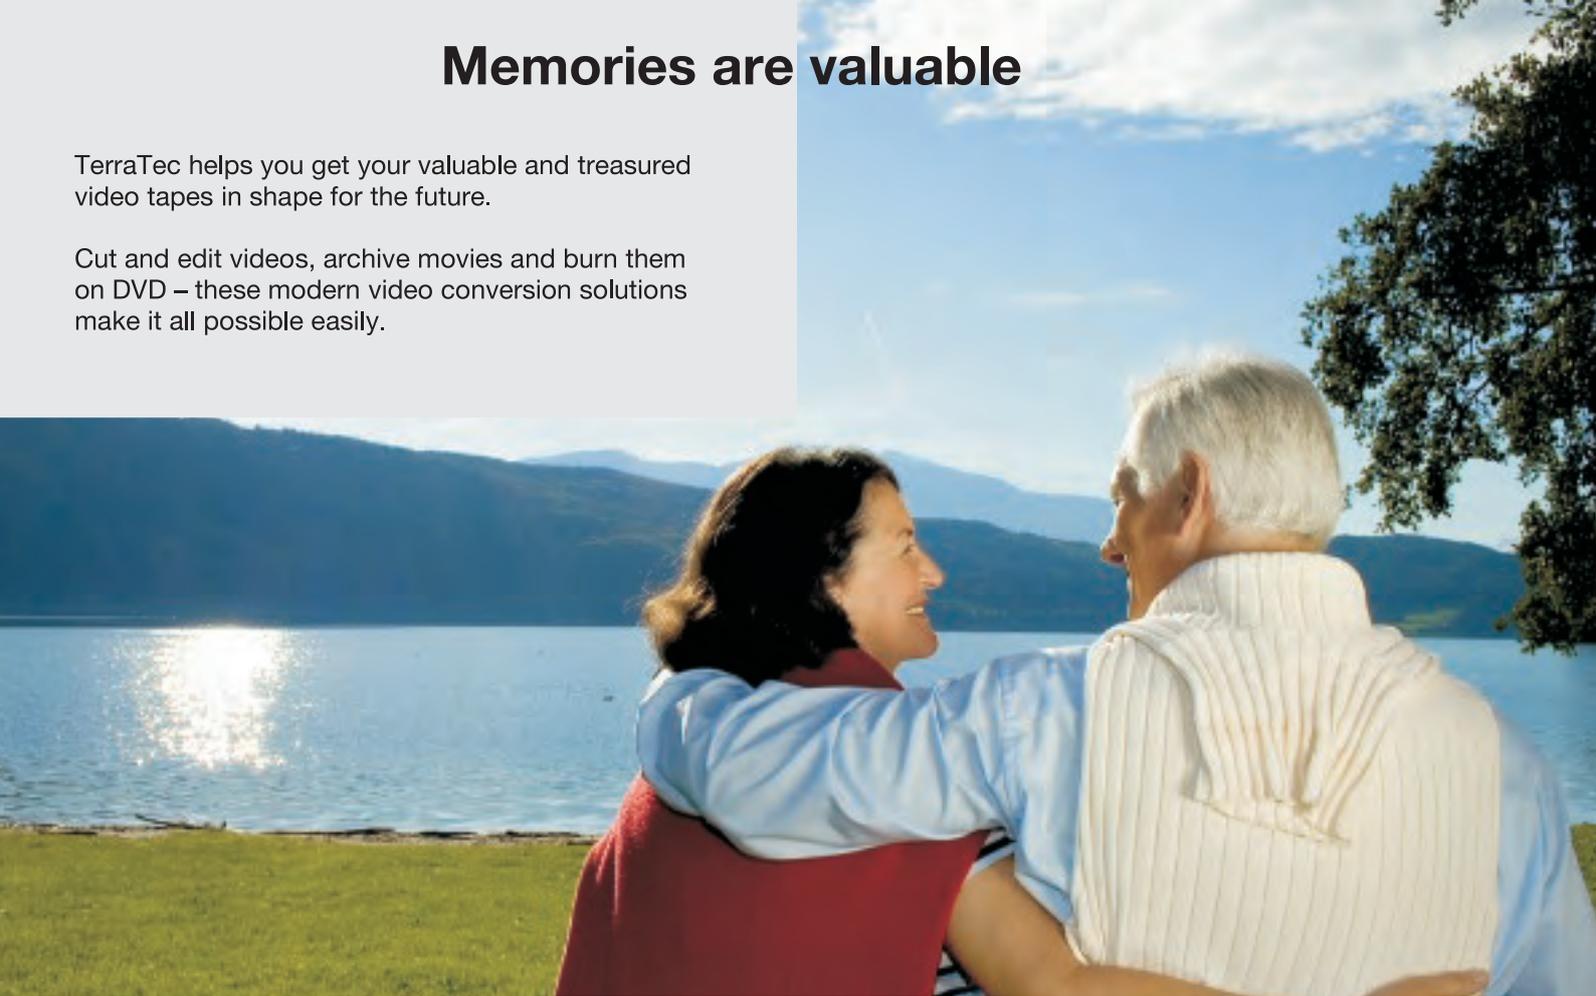

Reception improvement of DVB-T and DAB
Powered through USB or set top box
3 Frames in different colours
Optimised reach and reception quality
Noise reduced
Low distortion

Memories are valuable

TerraTec helps you get your valuable and treasured video tapes in shape for the future.

Cut and edit videos, archive movies and burn them on DVD – these modern video conversion solutions make it all possible easily.

GRABBY GRABSTER AV150MX GRABSTER AV350MX GRABSTER AV450MX

Video editing? – Anybody can!

Thanks to the latest technology from TerraTec editing videos is so easy even a child can do it.

Transfer, digitise and edit your VHS tapes on your PC by the touch of a button. Cut unwanted commercials and fragments from your recording, add special effects and sounds, and afterwards burn your project on a DVD easily.

In a blink of an eye you own a professional DVD that will last an eternity.

Netbook and PC
Plug and Play easy installation*

The end of nostalgia

If you still love to listen to your old vinyl records or cassettes, but feel the quality is just not good enough to support current digital demands, the PhonoPreAmp iVinyl offers the perfect solution.

Digitise your 'treasures' with the simple software and restore them into crystal clear audio files to last an eternity and playback on CD or MP3 player or iPod.

This small robust box does not need any additional equipment beside your record player or tape deck to convert it into an audio quality comparable to DVD audio quality (24bit / 96 kHz)

PHONOPreAmp iVinyl

Digitise vinyl records and cassettes

High quality output (24bit / 96 kHz)

Connection through USB

No additional sound card needed

Including restoration software for PC and MAC
