TV-freedom on your PC - without limits

No matter where you are or whatever you do - allow yourself the absolute freedom of limitless TV entertainment.

Turn your PC or notebook into a second TV with ease and enjoy your favourite TV shows in the sharpest quality in the office, in your spare time, on the road or just at home.

Couch potatoe was yesterday - TV anywhere is today!

T3

The “little one”
for the ultimate
TV mobility

T5

The “strong one”
for the best
TV reception

H5

The “allrounder”
for the most versatile
TV solution

Mobile people need simple solutions

T3

Small, ingenious and ready to use fast.

The T3 is the ideal solution for those that want to enjoy watching digital TV on a PC.

The optimized consumption of this small stick ensures long lasting enjoyment while watching TV and turns every computer into a small fully functional second TV with integrated video recorder functionality.

*Compact DVB-T stick with USB slider
Digital video recorder
Software for PC and MAC
incl. remote control and DVB-T antenna*

T5

Reception, anywhere possible

Watch TV on the beach whilst on holiday?
Not a must - but possible!

For those that do not want to miss their favourite TV-shows, even in bad reception areas, the T5 is the best possible solution.

Two integrated tuners either improve the reception quality by bundling two signals together or enable you to watch TV show and record another at the same time.

Of course not only when you are on holiday, but anywhere possible at any time.

*DVB-T-Stick with two integrated digital tuners
Digital video recorder
Software for PC and Mac
incl. remote control and two exclusive DVB-T-antennas*

For those that want it all!

H5

For all people that are on the road a lot and want to enjoy maximum TV and radio reception with minimal effort, the H5 should be the product of choice.

This flexible all in one solution receives digital cable TV (DVB-C) as well as analogue cable, terrestrial TV and digital terrestrial TV (DVB-T) to enjoy your favourite TV programs almost everywhere.

At home the analogue video input allows you even to turn your old VHS tapes into digital format on your computer easily.

A real all in one solution!

*USB stick for DVB-T, DVB-C, analogue TV & radio
Digital video recorder
analogue input to digitise VHS tapes
Software for PC and Mac
incl. remote control and DVB-T -antenna*

Couldn't be any clearer

For those who are not content with the standard choice of channels, S7 and H7 offer the possibility to receive a very diverse number of encrypted pay-tv channels ranging from sports to entertainment.

Watch TV and create recordings without any loss of quality.

The excellence of the pictures and recordings will convince you.

Only in real life can it get any clearer.

H7

For "Pay-TV" Fans connected to cable or antenna

S7

For "Pay-TV" Fans connected to satellite

Football or “Sex and the City”?

S7 / H7

Would you also like to watch a football match on pay-tv channels without disturbance when your wife demands to watch her favourite show and the kids are shouting for cartoons?

No problem. These little USB boxes make it possible.

Through the integrated common interface (CI) combined with the smartcard and decryption module (CAM) of your pay-tv provider it is possible to watch and record all channels that are included in your subscription.

This way you can create your own extensive collection of movies, sports matches and series and satisfy the whole family.

Record the children's show on your personal video recorder (PVR), leave the television set for your wife and watch the live match of your favourite team on your PC.

All at the same time.

S7

*External USB-Box for digital TV trough **satellit** (DVB-S, DVB-S2, and Satellite Radio)*

H7

*External USB-Box for TV trough **cabl** and antenna (DVB-T, DVB-C and Radio)*

*Digital video recorder
Supports HDTV and Dolby Digital
Integrated CI module for Pay-TV
incl. remote control*

G3

Save valuable memories

Do you still have old video tapes with beautiful and unforgettable memories?

It is very easy to digitise and save these memories for all eternity.

The latest technologie within G3 makes it possible.

Simply connect your analogue video source to this small box e.g. through the Scart connector and connect it through USB to your PC.

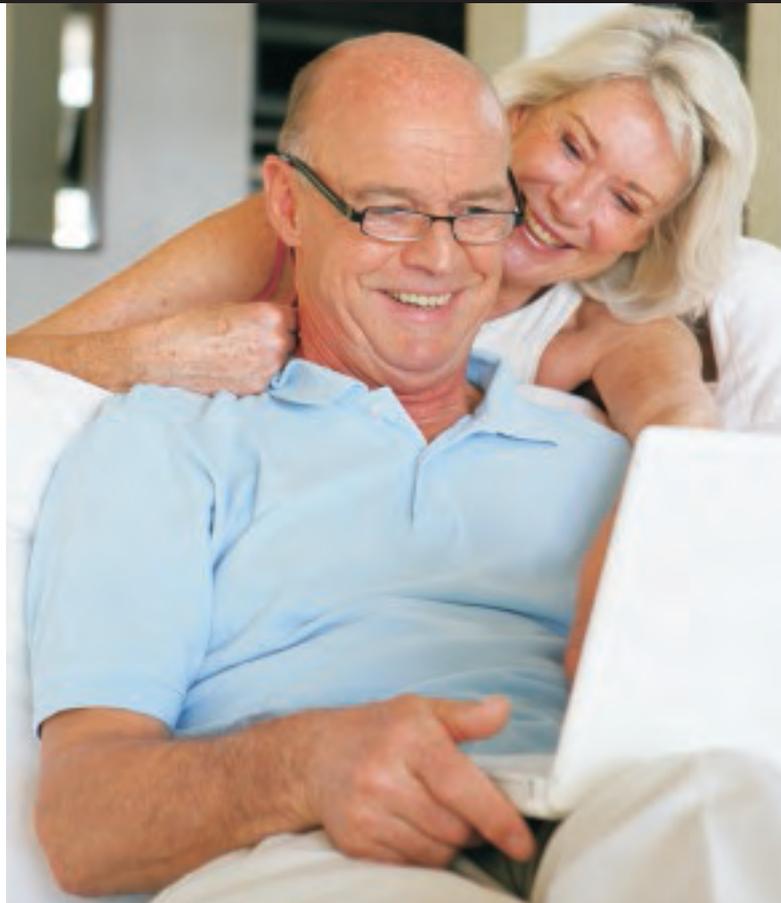

By doing this you can digitise and edit these “old treasures” and burn them on to a DVD.

Simply quality.

*External video grabber
Connecting trough USB 2.0
Connection trough Scart,
S-Video, Composite (Cinch),
Stereo Audio*

incl. video editing Software for PC and MAC

Be your own Pop-Star

DMX6FireUSB

Musicians and Djs pay attention.
The legend in soundcards is back.

All users with high expectations of sound quality will love this high-end external sound solution, DMX 6Fire USB.

Crystal clear sound and a high performance microphone connector enable high quality recordings of singing, mixing an playing on instruments.

This audio solution can easily digitise and digitally archive LP records and cassettes, with or without a “nostalgia” of hiss.

This product also offers a high quality 5.1 sound solution for gaming applications.

*Four analogue connectors, six RCA jacks
Digital I/O (optical and coaxial in and outs)
switch for 48V Phantom-Power on Microphone connector
Gain controllers
24Bit/192 kHz
Midi-Interface
5.1 Surround-Sound
USB-Cable 1,8 m
Headphones and guitar connector*
