

# CINERGY HTC STICK HD

Universal HD TV Tuner for your PC

- USB 2.0 receiver for Digital and analogue TV and radio
- HDTV
- Reception via cable and antenna
- Analogue inputs for digitalisation of VHS cassettes
- Digital video recorder
- Including remote control and DTT antenna
- Direct recording and programming via EPG
- Teletext, Time-shifting TV programs
- Automatic wake-up and shutdown (standby / idle state)

The Cinergy HTC Stick is the modern universal TV tuner for your PC. Plugged into a USB 2.0 port the stick receives digital terrestrial television (DVB-T, Freeview) and analogue television via an outdoor or indoor antenna as well as digital cable TV. And thanks to the remote control included in the package, you won't have to get off your couch.

The TV-software provided turns television on the computer into an experience. You can easily record the program that is in progress to your computer's hard drive, and can later burn all episodes of your favourite series to a DVD. Time shifting is very useful indeed. If your Sunday mystery has already begun and the pizza delivery man rings the doorbell, simply pause the program that is in progress at the touch of a button – and, after the interruption, pick up right where you left off! The built-in electronic program guide (EPG) and the familiar teletext make personal TV planning easier than ever.

# CINERGY HTC STICK HD
