

# CINERGY HT PCI

## Analogue & Digital TV Tuner

- DTT (Freeview) and analogue TV reception (cable, antenna)
- Digital video recorder with editing functions
- FM radio tuner
- Analogue video and audio inputs
- Incl. remote control

### Incl. TerraTec Home Cinema software:

TerraTec Home Cinema turns television on the computer into an experience. Whether internal or external TV card, whether digital (DVB-T, DVB-S, DVB-C) or analogue (antenna, cable) – the possibilities of turning your computer into a television are endless. Use a PCI card and a USB box, for example, to record a program and simultaneously view another one or record several broadcasts. All TerraTec TV cards can be freely combined for this purpose.

In addition to the usual functions, such as time-shifted television, electronic program guide (EPG) and digital video recorder, the TerraTec Home Cinema offers a few innovations: With remote programming via the Internet, the current television program can be conveniently searched and a recording can be programmed with a click of the mouse. For this purpose, TerraTec Home Cinema accesses the established service of tvtv.de – an annual subscription is included in the purchase price (download: 60-day version). The computer wakes up at home from standby or the idle state on time and the desired broadcast automatically lands on the hard disk. Even easier are recordings using the electronic program guide during the broadcast – simply press the corresponding button on the remote control. No matter how you plan your recordings: They can already be viewed while the recording is still running!

More new functions of the TerraTec Home Cinemas include: Automatic optimization of the aspect ratio, recording of Dolby Digital (AC3), video text and subtitles, support of DVB radio and customizable lists of favorites (genre, location), multi-tuner support and constantly available help functions as well as the advertising editor Cut! which allows for easily cutting advertising blocks – easier than ever before.

Slim and resource-saving, intuitive operation, yet very extensive – the TerraTec Home Cinema fully exploits the possibilities of television on the computer!

## Technical Details

### Features

- Digital or analogue TV on your PC
- FM Radio
- Digital video recorder
- Timeshifting
- EPG support
- Teletext
- Remote control

### Infrared remote control

- 48 buttons
- Batteries included
- Weight: 82 g

### Connectors

- Antenna
- Composite-Video and S-Video
- Audio

### Software

- Terratec Home Cinema
- MAGIX Movies on DVD TV Edition

### System Requirements:

- 2.0 GHz Intel or AMD CPU
- 512 MB RAM
- Windows XP SP2 / Vista
- 300 MB free hard drive space for software installation
- Direct-X-compatible audio hardware
- Direct-X-compatible video card with video overlay function
- CD/DVD drive for driver/software installation
- CD/DVD drive for creating CDs/DVDs
- Analogue antenna or cable reception
- Digital terrestrial reception (DVB-T)
- One free PCI 2.1 slot

### Scope of delivery:

- TerraTec Cinergy HT PCI
- Remote control
- Infrared receiver
- FM antenna
- Low Profile Slotblech
- Composite/S-Video adapter
- Registration code for tvtv (1 year Premium Account)
- Installation & software CD
- Manual (CD)
- Service request form
- Registration documents
