

# CINERGY hybrid T USB XS

The world's most mobile TV card!

- DTT (Freeview) and analogue TV reception (cable, antenna)
- Analog video and stereo audio inputs
- Incl. Remote control
- Digital video recorder with timer function
- Power supply via USB
- Ulead DVD Movie Factory 3 TV

#### Incl. TerraTec Home Cinema software:

TerraTec Home Cinema turns television on the computer into an experience. Whether internal or external TV card, whether digital (DVB-T, DVB-S, DVB-C) or analogue (antenna, cable) – the possibilities of turning your computer into a television are endless. Use a PCI card and a USB box, for example, to record a program and simultaneously view another one or record several broadcasts. All TerraTec TV cards can be freely combined for this purpose.

In addition to the usual functions, such as time-shifted television, electronic program guide (EPG) and digital video recorder, the TerraTec Home Cinema offers a few innovations: With remote programming via the Internet, the current television program can be conveniently searched and a recording can be programmed with a click of the mouse. For this purpose, TerraTec Home Cinema accesses the established service of tvtv.de – an annual subscription is included in the purchase price (download: 60-day version). The computer wakes up at home from standby or the idle state on time and the desired broadcast automatically lands on the hard disk.

Even easier are recordings using the electronic program guide during the broadcast – simply press the corresponding button on the remote control. No matter how you plan your recordings: They can already be viewed while the recording is still running!

More new functions of the TerraTec Home Cinemas include: Automatic optimization of the aspect ratio, recording of Dolby Digital (AC3), video text and subtitles, support of DVB radio and customizable lists of favorites (genre, location), multi-tuner support and constantly available help functions as well as the advertising editor Cut! which allows for easily cutting advertising blocks – easier than ever before.

Slim and resource-saving, intuitive operation, yet very extensive – the TerraTec Home Cinema fully exploits the possibilities of television on the computer!

# CINERGY hybrid T USB XS

## Technical Details

### Features

- Digital and analogue TV for notebooks and PCs
- Scheduled recordings and time shifting
- EPG support (DTT mode only)
- Teletext
- Power supply via USB
- USB 2.0 interface (480 Mbps)
- Infrared remote control
- Digital video recorder with full MPEG2 support
- Analogue video inputs: S-Video, and Composite, Stereo audio input

### Technical details

#### General

- Plug'n'Play
- Voltage: 5V DC (USB bus powered)
- Current: 480mA
- Housing colour: white/orange
- Dimensions: 80 x 30 x 15 mm

#### Infrared remote control

- 48 buttons
- 2 x AAA batteries

### Software

- TerraTec Home Cinema
- Ulead DVD Movie Factory 3 TV

### System requirements

- Intel Pentium 4 / AMD Athlon XP / Centrino certified CPU/ 2 GHz or higher
- 512 MB RAM
- 1 available USB 2.0 interface
- Audio hardware with DirectX support
- CD-R/DVD-R-drive for creating Video-CDs/Video-DVDs
- AGP graphics board with DirectDraw drivers and video overlay support
- Terrestrial digital TV reception (DVB-T, Freeview)
- Microsoft Windows® XP with SP 2 / Vista

### Scope of delivery

- TerraTec Cinergy Hybrid T USB XS
- USB2.0 extension cable (0.3m)
- Aerial adaptor cable
- Breakout cable video input/ audio input/remote control receiver
- Portable aerial with magnetic base
- Infrared remote control incl. batteries
- Installation/software CD-ROM
- Manual on CD-ROM
- Quick reference
- Service card
- Registration card
