- DVB-S & DVB-S2 USB TV and radio tuner
- HD support for MPEG2 and H.264
- AC3 Dolby Digital
- Digital video recorder with editing functions
- Incl. Remote control

Cinergy S2 USB HD

After connecting the sat cable, simply plug the Cinergy S2 USB HD into a USB port on your computer, install the TerraTec Home Cinema Basic TV software provided, and just like that, the world of TV is open to you. The Cinergy S2 USB HD includes everything you need to turn your laptop, netbook or desktop computer into a television with built-in video recorder and many other functions.

Digital TV via Satellite on your PC

Along with your laptop or netbook, the Cinergy S2 USB HD opens up completely new opportunities. The tiny box comes with everything you need for DVB-S / DVB-S2 reception. In no time at all, you have a second TV in your home.

Recording on hard drive and timeshifting TV programs

The TerraTec Home Cinema Basic software provided turns television on the computer into an experience. You can easily record the program that is in progress to your computer's hard drive, and can later burn all episodes of your favourite series to a DVD. Time shifting is very useful indeed. If your Sunday mystery has already begun and the pizza delivery man rings the doorbell, simply pause the program that is in progress at the touch of a button – and, after the interruption, pick up right where you left off! The built-in electronic program guide (EPG) and the familiar teletext make personal TV planning easier than ever.
