

The HomeArena 2.1 is the ideal loudspeaker system for anyone wanting compact dimensions, high-quality sound and clear reproduction. For games and music, the HomeArena 2.1 can offer sound of a quality not usually found in this price category.

The core of this loudspeaker system is a specially designed subwoofer. Its 10 cm (4") chassis and power of 10 W RMS (200 W P.M.P.O.) in the lower frequency range (30 to 200 Hz) can supply the necessary drive.

Two satellites, each with 3 W RMS (60 W P.M.P.O.), cover the 100 Hz to 30 kHz range. The two-way system used with two 7.5 cm (3") drivers for the middle range and an additional tweeter for the upper frequencies offers a clear, homogenous sound picture.

Look no further! You can control the overall volume of the Home Arena 2.1 using a simple cable remote control, meaning that you don't need to keep crawling under the table to change the settings.

Technical Details

- Output: Satellites 2 x 3 W RMS (2 x 60 W P.M.P.O.) + subwoofer: 10 W RMS (200 W P.M.P.O.)
- Dimensions: Satellites 225 x 140 x 105 mm, subwoofer 150 x 202 x 210 mm
- Contents: 2 satellites, 1 subwoofer, wire remote control, mains adaptor, short reference
- Connectors: Line-In: 3,5mm jack, satellites: RCA

Art.No.: 061020
EAN-Code: 4017273661025
Warranty: 24 months
