

The HomeArena TXR 665 transforms your PC into a thundering home cinema and surround sound gaming system and is great for music too. Or, if you've got a DVD Player that decodes Multi-channel DVD audio formats like DTS, Dolby Digital or Dolby Pro Logic (with suitable decoder), this 5.1 speaker system provides a compact, stylish and accurate DVD surround-sound solution.

A powerful 5.1 channel speaker system, the HomeArena TXR 665 is engineered to provide all the thrills of surround sound audio, whether it's enhancing the earth-trembling sound effects in your favourite movie, blasting out explosions in the latest games or immersing you in music.

Dual flared subwoofer bass ports are featured as well as improved amplifier electronics and tuned satellite speakers, giving a flatter, more accurate response for class-leading musical fidelity. A master volume control together with individual controls for centre, rear and sub ensure that its impressive 65 watts RMS of power is delivered where and how you want it.

The comprehensive package includes everything you need to get up and running quickly with connecting cables, detachable speaker stands for all satellites and optional wall-mounting brackets for the rear satellites. Just connect up to your DTS, Dolby Digital and Dolby Pro Logic capable soundcard or DVD Player (with suitable decoder) and immerse yourself into sound.
