

TERRATEC S7

USB box for digital satellite television including Common Interface for pay TV

- External USB box for DVB-S2 and DVB-S & radio
- Common Interface for pay TV
- Supports HDTV and Dolby Digital
- Connection via USB 2.0
- Including remote control

The TERRATEC S7 is a handy USB box with integrated receiver for satellite television (DVB-S2 and DVB-S) as well as radio. Simply connect it to a free USB 2.0 port, and the discreet box transforms netbook, laptop and desktop computers into a full-function television with full HDTV support (including Dolby Digital) and many additional features. The TV-Software allows operation on all household computers, extensive accessories with a remote control and power adapter are included in the shipping package.

Television with ultimate variety

Regardless of whether you want to follow the latest developments on the stock market or keep up to date with world news in your home office, want to watch a football match with friends or easily record all transmissions of your favourite series or current feature films in your living room - the TERRATEC S7 makes it possible. So your computer easily becomes the second television. Hundreds of stations from throughout the world can be received via satellite – including radio. There is always something for you!

Fit for HDTV and Dolby Digital

The handy USB box is now fit for reception of high definition television (HDTV) with finest quality Dolby Digital sound. Nothing can now stop you from enjoying television in crisp and sharp quality whenever programmes are transmitted in the selected reception standard in your reception area. After all, all monitors currently sold are able to display HDTV in its full brilliance.

Software

The Software developed in Germany allows the TERRATEC S7 to be used everywhere. It is simple to use, but is also full of options for optimal configuration to your needs. Time-shifted television, manual and scheduled recording in lossless quality on hard disk, electronic programme guide (EPG) and teletext plus many other interesting functions deliver a fully new television experience.
